Crafting Charming Characters: A Step-by-Step Guide to Making Fondant People

Ever gazed at a beautifully decorated cake adorned with adorable fondant figures and thought, "There's no way I could ever do that!"? Well, I'm here to tell you that you absolutely can! Making fondant people might seem intimidating, but with a little patience, the right tools, and this comprehensive step-by-step guide, you'll be creating your own edible art in no time. From simple cartoon characters to more detailed figurines, we'll break down the process, making it accessible even for beginners.

Why Fondant for People?

Fondant is the go-to medium for cake decorators when it comes to creating figures because of its smooth, pliable texture and its ability to hold its shape once dried. Unlike buttercream, which can be soft and prone to melting, fondant dries to a firm, matte finish, making it ideal for creating stable, three-dimensional characters that can stand proud on your cakes. Plus, its smooth surface is perfect for painting details or adding textures.

Gathering Your Arsenal: Essential Tools and Ingredients

Before we dive into the sculpting, let's make sure you have everything you need. Think of this as your fondant sculptor's toolkit!

Fondant Ingredients

1. **Ready-made Fondant:** For beginners, using store-bought fondant is highly recommended. It's readily available in various colors and is pre-mixed for your convenience. Look for brands known for their good workability.
2. **Food Coloring:** Gel food coloring is your best friend here. It provides vibrant colors without adding too much moisture, which can make your fondant sticky. You'll need colors for skin tones, hair, clothing, and any accessories.
3. **Tylose Powder (or CMC powder):** This is a crucial ingredient for figures! Tylose powder is a fondant strengthener. Adding a small amount to your fondant allows it to dry harder and hold intricate shapes better, preventing your little people from slumping.
4. **Shortening (Vegetable Shortening or Crisco):** A small amount of shortening on your

hands will prevent the fondant from sticking to you as you work.

5. **Cornstarch or Powdered Sugar:** For dusting your work surface and tools to prevent sticking.

Essential Tools

1. **Rolling Pin:** A small, non-stick rolling pin is ideal for flattening fondant.
2. **Fondant Tools:** A basic set of fondant tools is incredibly helpful. Look for ones with:
 1. **Ball Tool:** Great for creating indents, cheeks, and shaping.
 2. **Pizza Cutter or Craft Knife:** For precise cuts and detailing.
 3. **Small Spatula or Palette Knife:** For smoothing and lifting.
 4. **Modeling Tools:** Various shaped tips for adding details, textures, and expressions.
3. **Toothpicks:** Indispensable for supporting delicate parts, creating armatures, and attaching small elements.
4. **Small Bowl of Water:** For "gluing" fondant pieces together.
5. **Edible Glue:** An alternative to water for a stronger bond, especially for heavier pieces.
6. **Cutting Mat or Silicone Mat:** Protects your work surface and provides a non-stick base.
7. **Wax Paper or Parchment Paper:** For resting your figures as they dry.

Preparing Your Fondant for Sculpting

The secret to smooth, easy sculpting starts with properly prepared fondant. This is where that magic ingredient, Tylose powder, comes in.

Kneading and Strengthening

Take your desired fondant color and place it on a clean, lightly dusted surface (cornstarch or powdered sugar works well). If you're using a different color than what you bought, now's the time to knead in your gel food coloring. Start with a small amount and gradually add more until you achieve your desired shade. Remember, colors will deepen as they sit.

Next, it's time to add the Tylose powder. For every 250g (about 8-9 oz) of fondant, add approximately 1 teaspoon of Tylose powder. Knead it in thoroughly until it's evenly distributed. You'll notice the fondant becomes slightly firmer and more elastic. This process usually takes about 5-10 minutes of vigorous kneading. Don't be afraid to really work it!

Let the fondant rest for at least 30 minutes, or even better, an hour, wrapped tightly in plastic wrap. This allows the Tylose to fully hydrate and makes the fondant even more pliable and easier to work with. You can even prepare fondant with Tylose powder the day before and store it in an airtight container at room temperature.

Sculpting Your Fondant People: A Step-by-Step Breakdown

Now for the fun part! We'll start with a basic human shape and then explore how to add details to bring your fondant characters to life. For our example, let's create a simple standing person.

Step 1: The Body Core

Take a portion of your prepared skin-toned fondant. Roll it into a smooth, elongated oval shape. This will be the main body of your figure. Aim for a size appropriate for your cake. You can use a toothpick inserted into the bottom for stability, especially if you plan to place it directly on the cake later.

Step 2: The Head

Roll a smaller ball of skin-toned fondant for the head. Gently attach it to the top of the body. You can use a tiny bit of water or edible glue on the join to ensure a secure connection. Use your fingers or the ball tool to smooth the join, creating a seamless transition.

Step 3: Adding Limbs (Arms and Legs)

1. **Legs:** For the legs, take two equal portions of skin-toned fondant. Roll each into a thick rope, tapering slightly at the ends. Attach these to the bottom of the body, one on each side. You can shape them to look like they are standing, or bent as if sitting.
2. **Arms:** For the arms, roll two thinner ropes of fondant. Attach these to the sides of the body where the shoulders would be. You can bend them into various poses – by their sides, outstretched, or resting on their hips.

Use your modeling tools to gently refine the shapes of the limbs, creating smoother transitions and more natural contours. Remember, the Tylose powder will help these hold their shape.

Step 4: Crafting the Features (Face)

This is where your fondant person really starts to get personality!

1. **Eyes:** For simple eyes, you can use tiny dots of black or colored fondant. Alternatively, you can use edible black food coloring and a fine-tipped food-safe brush to paint on eyes. If you want more defined eyes, roll two tiny balls of white fondant for the whites, and two even tinier balls of black fondant for the pupils, and attach them.
2. **Nose:** A tiny bead of skin-toned fondant, subtly shaped, works for a nose. You can use the pointed end of a modeling tool to create nostrils.
3. **Mouth:** Use a fine modeling tool or a small pointed tool to gently press a line for the mouth. You can also use a tiny sliver of pink or red fondant for lips.
4. **Cheeks:** Use the ball tool to gently press in indentations for cheeks, giving your figure a softer look.

Take your time with the facial features. It's often easier to add them when the head is still slightly soft. You can also create cartoonish expressions by varying the size and placement of the features.

Step 5: Hair Today, Gone Tomorrow (or Stayed!)

Roll out a portion of your chosen hair color fondant. You can create different hairstyles:

1. **Short Hair:** Simply flatten a small amount of fondant and press it onto the head, shaping it with your fingers or a modeling tool to mimic short hair.
2. **Long Hair:** Roll out thin ropes of fondant and drape them around the head to create braids, ponytails, or flowing locks.
3. **Curly Hair:** Use a modeling tool with a ridged texture to create a curly effect on flattened fondant pieces.

Step 6: Dressing Up Your Figure

This is where you can get really creative! You can sculpt clothes directly onto the figure or create separate pieces.

1. **Direct Sculpting:** Flatten a piece of fondant in your desired clothing color. Drape it over the body and head, trimming and shaping it to create a shirt, dress, or pants. Use modeling tools to create folds and seams.
2. **Separate Pieces:** You can cut out shapes for a top or a skirt and attach them using water or edible glue. For buttons or embellishments, use tiny balls of contrasting fondant.

Don't forget shoes! Small sculpted shoes or simple flat circles for the feet can add a nice finishing touch.

Step 7: Adding Details and Accessories

This is where your fondant people go from basic to brilliant. Think about what makes your character unique:

1. **Accessories:** Glasses, hats, scarves, bags, books, even little tools – the possibilities are endless! Use small amounts of fondant to sculpt these items and attach them securely.
2. **Textures:** Use specialized tools or even everyday objects (like the back of a fork for a denim texture) to add detail to clothing or hair.
3. **Painting:** Once your fondant is dry, you can use edible food paints to add finer details like eyelashes, highlights, or intricate patterns on clothing.

Drying and Displaying Your Fondant Creations

Patience is key when it comes to drying your fondant figures. They need time to firm up before they can be placed on a cake or handled extensively.

The Art of Drying

Once your fondant person is complete, place them on a piece of wax paper or parchment paper. Allow them to air dry at room temperature for at least 24-48 hours, or until they are firm to the

touch. The drying time will vary depending on the humidity and the size and complexity of your figure. Avoid refrigerating fondant, as this can cause condensation and make it sticky.

If your figure has delicate parts that might not stand well on their own, you can use skewers or toothpicks as internal supports. For arms or legs that need to be at a specific angle, you can prop them up with small rolled pieces of wax paper while they dry.

Attaching to Your Cake

When your fondant figures are fully dry and firm, you can attach them to your cake. You can place them directly onto a frosted cake, but for a more secure hold, especially on fondant-covered cakes, use a little royal icing or a dab of edible glue to adhere them. If your figures are heavy, consider inserting a skewer into the base and then into the cake for extra support.

Tips and Tricks for Fondant Figure Success

Here are some insider tips to elevate your fondant figurine game:

1. **Work in Sections:** Don't try to make a whole figure at once if you're a beginner. Start with the body, let it firm up slightly, then add the head, then the limbs.
2. **Keep it Moist (When Needed):** If your fondant starts to dry out while you're working, dab your fingers with a tiny bit of water or shortening.
3. **Practice Makes Perfect:** Your first fondant figures might not be flawless, and that's okay! The more you practice, the better you'll become at shaping and detailing.
4. **Reference Photos:** Have pictures of the characters you're trying to create handy for reference.
5. **Don't Be Afraid to Experiment:** Try different tools, techniques, and colors. That's how you'll discover what works best for you.
6. **Consider Internal Armatures:** For taller or more complex figures, consider using a wire armature (covered in fondant) for stability. This is more advanced but essential for standing figures that need to be very tall.
7. **Embrace Imperfection:** Especially when you're starting, a little quirkiness can add charm!

Conclusion: You've Got This!

Making fondant people is a rewarding journey that allows you to add a personal and delightful touch to any celebration. From cartoon characters for a child's birthday to elegant figures for a wedding cake, the skills you learn here will open up a world of creative possibilities. Creating Lifelike Fondant People: A Step-by-Step Guide to Sculpting Realistic Miniature Figures
Fondant, a pliable and sweet medium traditionally beloved in cake decorating, has evolved into a versatile sculpting material for crafting delicate, human-like figures. Whether used in custom wedding cakes, decorative centerpieces, or artistic displays, making fondant people step by step combines patience, technique, and a keen eye for detail. This guide explores the essentials

of transforming simple fondant into expressive, lifelike miniatures that capture both form and emotion. The journey begins with selecting the right quality fondant—ideally a smooth, pliable variety designed for sculpting. Avoid overly sticky or dry batches, as they compromise the sculpting process. Start by gently kneading the fondant until it reaches a uniform texture, free from lumps and tension. This foundational step ensures the material holds fine details without tearing or cracking as you shape. Once prepared, the next phase involves establishing a basic form. Using your hands or gentle tools like sculpting needles and small modeling tools, begin shaping the head, torso, arms, and legs. Focus first on the head, sculpting a smooth cranium with subtle contours to suggest facial structure. The key here is balance—proportions that reflect human anatomy help ground the figure in realism. Gently pinch and stretch the fondant to create natural curves, especially around the temples, jawline, and cheekbones, avoiding rigid lines that break the illusion of softness. With the core form established, move deeper into facial features. Using fine tools, carve delicate eyes, a small, expressive mouth, and subtle nostrils. These details are critical, as they breathe life into the figure. Pay close attention to symmetry and proportion—early corrections prevent disproportionate results later. For skin texture, lightly score the surface with a toothpick or fine brush to simulate natural complexity, then apply a translucent dusting of edible matte or shimmer powder to enhance depth and realism. Clothing and accessories elevate the figure from simple sculpture to storytelling art. Select thin fondant sheets or rolled dough for garments, adjusting thickness to match fabric weight—lightweight for flowing dresses, firmer for tailored suits. Shape each piece with careful folding, pleating, and smoothing, ensuring fabric hangs naturally around limbs and torso. Buttons, lace, and subtle textures can be added using stencils or embossing tools, bringing visual interest and authenticity. The application of fondant people extends far beyond novelty. In professional cake design, they serve as central focal points that transform cakes into edible sculptures, enhancing visual appeal and thematic cohesion. Artists and hobbyists use them in gallery displays, fashion-inspired installations, and even theatrical props, where durability and detail are paramount. The ability to customize expression, posture, and attire makes fondant figures powerful tools for conveying emotion, culture, and narrative. One of the most compelling benefits of working with fondant is its versatility and accessibility. Unlike more delicate materials such as polymer clay or wax, fondant is forgiving—small imperfections can often be gently smoothed or reshaped without compromising the final outcome. Its shelf life, especially when stored properly in airtight containers, allows for careful planning and precise execution. Additionally, fondant is edible, making it ideal for events where the figure may be admired closely and even consumed, merging aesthetics with sensory experience. Looking to the future, the craft of making fondant people is poised for innovation. Advances in edible material science may introduce new fondant blends with enhanced flexibility, color retention, and structural integrity, enabling even finer detail and more dynamic poses. Digital design tools and 3D printing applications are beginning to influence sculpting workflows, offering precise templates that guide hand sculpting or assist in prototyping. These technologies could democratize the craft, enabling artists to push creative boundaries while maintaining the warmth and artistry of traditional handmade figures. Ultimately, crafting fondant people is more than a technical exercise—it's an act of creative expression that bridges art and confectionery. By mastering each step, from preparation to final detailing, anyone can bring to life miniature figures that captivate, inspire, and reflect the depth of human form with grace and authenticity.

You'll primarily need a rolling pin, fondant smoothers, various sculpting tools (like ball tools, veining tools, and knives), a small sharp knife or craft blade, cornstarch or powdered sugar for dusting, and a clean, non-stick surface for working. Miniature brushes can also be helpful for adding details.
2	How do I get smooth, well-proportioned fondant figures?	Start by kneading your fondant until it's pliable. For proportions, think about basic shapes: a large oval for the body, smaller spheres for the head and limbs. Use reference images! Smooth surfaces by gently rolling them with a fondant smoother or your fingertips. Keep dusting your surface and tools lightly to prevent sticking.
3	What's the best way to attach fondant limbs and head to the body?	Use edible 'glue' made from a small amount of tylose powder mixed with water, or even a tiny dab of piping gel or water. Lightly dampen the area where you want to attach a piece, then gently press it into place. For hair, you can press fondant through a garlic press or a fondant extruder for strands, or sculpt individual pieces to create texture and style.

5	My fondant figures are looking a bit stiff. How can I make them more dynamic and lifelike?	Experiment with posing! Instead of straight limbs, try bending knees, elbows, or tilting the head. Add subtle curves and natural stances. Don't be afraid to create slight wrinkles or folds in clothing. For movement, consider making one leg slightly ahead of the other or having arms in a more relaxed, natural position.

Choosing the best eBook platform for How To Make Fondant People Step By Step is an important decision that can significantly affect your overall reading experience. With so many digital platforms available today, each offering different features, pricing models, and device compatibility, it is essential to understand what suits your personal needs and reading habits

best.

The first factor to consider is device compatibility. Some eBook platforms are closely tied to specific devices, while others offer greater flexibility. For example, Amazon Kindle books work seamlessly with Kindle eReaders and Kindle apps on smartphones, tablets, and computers. Platforms like Google Play Books and Apple Books are designed to integrate smoothly with Android and iOS ecosystems. If you use multiple devices, choosing a platform that supports cross-device synchronization ensures you can continue reading *How To Make Fondant People Step By Step* exactly where you left off.

Another important aspect is user interface and reading comfort. A good eBook platform should provide a clean, intuitive interface with customizable reading settings. Features such as adjustable font size, font style, line spacing, background color, and night mode can make a big difference, especially for long reading sessions. Before committing to a platform, explore screenshots, demos, or free samples to see how comfortable it feels for reading *How To Make Fondant People Step By Step* content.

Content availability is equally crucial. Not all platforms offer the same catalog. Some specialize in fiction, others in academic, technical, or educational materials. Make sure the platform you choose has a wide selection of *How To Make Fondant People Step By Step* eBooks, including new releases, popular titles, and older editions. Pricing and access models should also be evaluated. Some platforms sell eBooks individually, while others offer subscription-based access. Services like Kindle Unlimited or Scribd allow users to read multiple *How To Make Fondant People Step By Step* books for a monthly fee, which can be cost-effective for avid readers. However, ownership models may be preferable if you want permanent access to specific titles. Understanding how you prefer to access and pay for content will help narrow down the best option.

Crafting Charming Characters: A Step-by-Step Guide to Making Fondant People

Transforming a simple block of sugary paste into a recognizable and delightful figurine can feel like a true art form. Whether you're a seasoned cake decorator or a curious beginner, mastering the art of making fondant people opens up a world of creative possibilities for your cakes and cupcakes. From whimsical cartoon characters to elegant wedding toppers, these edible sculptures add a personalized and memorable touch to any celebration. This comprehensive guide will walk you through the entire process, from preparing your materials to adding those crucial finishing touches, ensuring your fondant creations are as impressive as they are delicious.

Creating fondant figures isn't just about following instructions; it's about understanding the properties of the material, developing a feel for its texture, and employing a touch of artistic flair. We'll delve into the essential tools, the foundational techniques, and the tricks of the trade that will help you sculpt with confidence. So, gather your ingredients, roll up your sleeves, and let's bring your fondant people to life, step by step.

1. Gathering Your Essential Tools and Materials

Before you can sculpt, you need the right arsenal. Having the proper tools will not only make the process smoother but also contribute to a more professional and refined finish on your fondant people.

Fondant: The Sculpting Medium

The cornerstone of your edible figures is, of course, fondant. You can buy pre-made fondant in a vast array of colors, or you can create your own from scratch. For beginners, pre-made fondant is often the most convenient. Look for a high-quality brand known for its pliability and smooth texture. If you plan on making many figures, consider purchasing fondant in bulk.

Coloring Your Fondant

While pre-colored fondant is readily available, you might need custom shades. For this, gel food coloring is your best friend. Unlike liquid coloring, gel colors are highly concentrated and won't alter the consistency of your fondant. You'll also need a small amount of vegetable shortening or fondant smoother to prevent sticking while kneading.

Essential Sculpting Tools

A good set of fondant tools is crucial for shaping, detailing, and smoothing.:

1. **Fondant Rolling Pin:** A non-stick rolling pin, preferably smaller than a standard one, is ideal for thin, even rolling.
2. **Ball Tool:** This is invaluable for creating indentations, cupping petals, and smoothing seams.
3. **Modeling Tools/Detailing Tools:** A variety of these tools with pointed tips, blades, and rounded ends will help you carve, sculpt, and add intricate details like eyes, mouths, and fabric folds.
4. **X-Acto Knife or Craft Knife:** For precise cuts and trimming excess fondant.
5. **Small Paintbrushes:** For applying edible glue and delicate details.
6. **Cornstarch or Icing Sugar:** A dusting of either will help prevent fondant from sticking to your work surface and tools. Use sparingly to avoid drying out the fondant.
7. **Edible Glue or Water:** To adhere different fondant pieces together.
8. **Turntable (Optional but Recommended):** Allows for easy rotation of your figure as you work, ensuring even sculpting from all angles.
9. **Cutting Mat or Silicone Mat:** Protects your work surface and provides a non-stick area.

Support Structures (For Larger Figures)

If your fondant people are going to be standing tall or have outstretched limbs, you might need internal supports. Skewers, toothpicks, or even specialized cake dowels can be used to provide stability. Ensure these are food-safe and inserted carefully.

2. Preparing Your Fondant for Sculpting

The preparation phase is key to achieving smooth, pliable fondant that's ready to be shaped. Mishandling fondant at this stage can lead to cracking and a less-than-ideal end product.

Kneading Fondant to the Right Consistency

Fondant often needs a bit of kneading to become pliable and smooth. This process helps to warm it up and make it easier to work with. Start by taking a portion of fondant and gently stretching and folding it. If your fondant feels a little stiff, rub a tiny amount of vegetable shortening onto your hands. Be cautious not to use too much, as this can make the fondant greasy and difficult to attach.

Coloring Fondant (If Necessary)

If you need to color your fondant, it's best to do so at this stage. Take a small amount of gel food coloring on the tip of a toothpick and knead it into the fondant. Start with a small amount and gradually add more until you achieve your desired shade. Be patient, as it can take a few minutes of kneading for the color to distribute evenly. For darker or more vibrant colors, you may need to use a significant amount of coloring, so be prepared for some hand staining!

Storing Unused Fondant

Fondant dries out quickly when exposed to air. Always keep any unused fondant tightly wrapped in plastic wrap and stored in an airtight container or resealable bag. You can store it at room temperature or in the refrigerator, but allow it to come back to room temperature before using it again to avoid condensation.

3. Sculpting the Body: Building Your Fondant Figure

This is where the magic begins! We'll break down the process of creating the basic form of your fondant person, starting with the core elements.

Creating the Torso

Most fondant figures begin with the torso. Take a portion of your prepared fondant and roll it into a smooth ball. Then, gently shape it into an oval or a slightly tapered cylinder, depending on the proportions you desire for your character. You can use your hands to smooth out any lines or imperfections. If you're making a standing figure, consider making the base slightly flattened for stability.

Forming the Head

Roll another ball of fondant for the head. Again, smooth it into a perfectly round sphere. The size of the head relative to the body is crucial for the overall look of your figure. Refer to your inspiration image or sketch to get the proportions right. You can slightly flatten the bottom of the head where it will attach to the torso.

Attaching the Head to the Body

Before attaching, lightly moisten the bottom of the head and the top of the torso with a small amount of edible glue or water. Gently press the head onto the torso, then use a modeling tool

or your finger to smooth the seam where they join. You can also use a small piece of fondant to create a "neck" if desired.

4. Adding Limbs and Features: Bringing Your Fondant People to Life

With the core structure in place, it's time to add the essential elements that define your character.

Sculpting Arms and Legs

For arms and legs, you'll typically roll out ropes or cylinders of fondant. The thickness and length will vary depending on the character. For the legs, you might roll two equal-length ropes and then shape them into thighs and calves. For arms, you'll create similar ropes and then shape the upper arm and forearm. Remember to consider joints – you can create subtle bends at the elbows and knees by gently pressing with a modeling tool.

Attaching Limbs

Similar to attaching the head, lightly moisten the areas where the arms and legs will connect to the torso. Press the limbs firmly into place and smooth the seams. For extra stability, especially with arms that might be outstretched, you can insert a toothpick or a piece of spaghetti into the torso before attaching the arm. Be sure to trim any excess that might poke through.

Creating Hands and Feet

Hands and feet can be the most challenging but also the most rewarding parts. For simpler figures, you can create small, rounded shapes for hands and feet. For more detailed figures, you might roll tiny balls for fingers and attach them individually, or use a small knife to etch in finger lines. For feet, you can create simple shoe shapes or flatten the ends of the leg pieces.

Facial Features: Eyes, Nose, and Mouth

This is where your character truly gets its personality! For eyes, you can use small balls of white fondant with tiny black dots for pupils, or simply use edible food pens for a quick and easy solution. For noses, a tiny ball or a carefully sculpted teardrop shape works well. Mouths can be created by carefully pressing a modeling tool into the fondant to create a smile or a frown, or by cutting thin strips of fondant.

5. Adding Details and Finishing Touches

The small details are what elevate a basic fondant figure to a work of art. This is where you can really let your creativity shine.

Clothing and Accessories

This is where you can have a lot of fun! Use different colored fondant to create clothing like dresses, shirts, pants, or even superhero costumes. You can drape and shape the fondant to mimic fabric. For accessories like hats, bows, or belts, simply sculpt them separately and attach them with edible glue.

Hair Styling

Hair can be a fantastic way to add character. You can roll thin strands of fondant and layer them to create braids or curls. For shorter hair, you might use a fondant extruder or a knife to create texture. Experiment with different tools to achieve the desired hairstyle.

Keywords: fondant hair, fondant hairstyles, fondant braids, fondant curls

Adding Texture and Realism

Use your modeling tools to add subtle textures. For example, you can create dimples, wrinkles, or the impression of fabric weave. A ball tool can be used to create gentle curves and shading. Don't be afraid to experiment with different tool tips.

Keywords: fondant texture, fondant detailing, realistic fondant figures

Using Edible Paint or Dusts

For even more realism, consider using edible paints or luster dusts. Edible paints can add depth and shading to your figures, while luster dusts can give a subtle shimmer or metallic finish to clothing or accessories. Apply these with a fine paintbrush.

Keywords: edible paint for fondant, luster dust, edible glitter, fondant finishing

6. Drying and Displaying Your Fondant People

Once your fondant people are complete, proper drying is essential for them to hold their shape and be ready for display.

Allowing Fondant Figures to Dry

Fondant figures need time to dry and harden. The drying time will vary depending on the size of

the figure, the humidity in your environment, and whether you used gum paste (which dries harder and faster). Allow your figures to air dry on a clean surface, away from direct sunlight or moisture. For larger or more complex figures, this could take 24-48 hours or even longer.

Keywords: drying fondant figures, fondant hardening, air dry fondant

Storing and Transporting Fondant Figures

Once completely dry, fondant figures can be stored in an airtight container at room temperature. Avoid refrigerating them, as this can cause condensation and make them sticky. When transporting them, ensure they are well-protected to prevent breakage. You can place them in a sturdy box with plenty of cushioning.

Keywords: storing fondant figures, transporting cake toppers, fondant figure storage

Attaching Fondant Figures to Cakes

When it's time to place your fondant people on your cake, use a dab of edible glue or royal icing to secure them. For heavier figures, consider inserting a food-safe skewer into the base of the figure and then into the cake for added stability.

Keywords: attaching fondant to cake, cake topper placement, securing fondant figures

Making fondant people is a rewarding process that allows for endless creativity. With patience, practice, and the right techniques, you'll be well on your way to crafting charming edible characters that will delight and impress!
