

The Law Of Attraction Esther And Jerry Hicks

The Law of Attraction: A Critical Examination of the Hicks' Teachings **The Law of Attraction, popularized by Esther and Jerry Hicks through their "The Power of Now" and "Ask and It Is Given" series, has captivated millions worldwide. This concept posits that thoughts and beliefs directly influence reality, manifesting desired outcomes through focused intention. While the appeal is undeniable, a rigorous academic analysis must critically examine the underpinnings of this philosophy, exploring its potential benefits, limitations, and the scientific evidence that supports or contradicts its claims. This aims to provide a comprehensive overview of the Law of Attraction, focusing specifically on the teachings of Esther and Jerry Hicks. We will explore the central tenets, analyze their methodology, and evaluate their impact on personal development and the broader cultural landscape.** I.

Understanding the Hicks' Framework: "The Universe Responding to Your Thoughts" **The Hicks' interpretation of the Law of Attraction emphasizes the idea that the universe operates as a responsive entity, constantly reacting to the individual's thoughts and beliefs. They posit that feelings, not just thoughts, are crucial in this process. They coined the term "vibrational frequency," arguing that different emotional states correspond to varying energy levels, and that aligning with a higher vibrational frequency attracts corresponding experiences.**

The Role of Limiting Beliefs

Hicks' teachings heavily emphasize the role of limiting beliefs in hindering manifestation. They argue that negative thoughts, fears, and self-doubt create a lower vibrational frequency, thereby attracting experiences that reinforce these negative patterns. Conversely, positive thoughts, emotions of gratitude, and self-belief are believed to elevate the vibrational frequency, facilitating the manifestation of desired outcomes.

The Process of Creation: "Asking and Receiving"

The Hicks' model focuses on the process of "asking and receiving." They propose that by clearly and consistently expressing desires, individuals invite the universe to respond in kind. Their key concept involves "asking" with unwavering belief, and letting go of control over the specifics of manifestation. II. Empirical Evaluation: Exploring the Scientific Basis and Limitations **While the Law of Attraction resonates with many, its scientific validity is debated.**

The Role of Placebos and Confirmation Bias

A crucial element in understanding the effectiveness of the Law of Attraction is the concept of the placebo effect. Individuals who believe in the power of the Law of Attraction might experience positive changes due to their belief system itself, rather than the influence of the universe or their thoughts in a causally determined manner. Further, the focus on personal experience and the subjective nature of the results can lead to confirmation bias. Individuals might interpret any positive outcome as evidence of the Law of Attraction, while overlooking or dismissing negative experiences.

Lack of Empirical Evidence and Testability

The Law of Attraction, as presented by Hicks, struggles with empirical testability. Establishing causal links between specific thoughts, feelings, and corresponding outcomes remains problematic due to the complexity

of human psychology and the multitude of external factors that influence events. Crucially, lacking well-designed, controlled studies, the effectiveness of the Law of Attraction remains unsupported by robust scientific evidence. III. Practical Applications and Cultural Impact

Impact on Self-Help Industry

The Law of Attraction has had a significant impact on the self-help industry. Numerous books, workshops, and online resources have been developed based on the principles advocated by Hicks, leading to a vast global following. This popularity speaks to the deep-seated human desire for control and influence over one's own destiny.

Relationship to Spirituality and Mindset

The Law of Attraction often intersects with various spiritual and philosophical perspectives. The emphasis on mindset, positive thinking, and personal responsibility aligns with numerous spiritual teachings that advocate for self-improvement and spiritual growth. However, the approach is often criticised for potentially downplaying the role of external factors and social determinants in shaping an individual's reality. IV. Critical Analysis: A Deeper Dive The Law of Attraction, while possibly encouraging personal growth, faces scrutiny for its potential shortcomings.

Potential Dangers and Misconceptions

Oversimplifying complex realities and downplaying the role of external factors can be misleading, potentially hindering individuals from taking necessary steps towards addressing real-world challenges. Furthermore, the emphasis on personal responsibility can lead to feelings of blame and inadequacy if outcomes do not align with expectations.

Overemphasis on Positive Thinking

The overemphasis on positive thinking, as often presented in the Law of Attraction, can sometimes overshadow the necessity of addressing and resolving genuine problems. A balanced perspective that combines positive affirmations with critical self-reflection and proactive problem-solving is crucial. V. Conclusion The Law of Attraction, as popularized by Esther and Jerry Hicks, presents a compelling, yet ultimately nuanced perspective on human potential. While its appeal lies in its promise of self-empowerment and manifesting desired outcomes, it is critical to consider the lack of scientific support for its underlying mechanisms. This underscores the necessity of viewing the Law of Attraction not as a scientific principle, but as a philosophy that resonates with certain individuals and encourages positive thinking and personal responsibility. It further highlights the need for caution against misinterpretations and the importance of integrating it with a practical and realistic approach to life's challenges. Advanced FAQs **1.** How can one distinguish between genuine self-improvement and the potentially detrimental effects of focusing solely on the Law of Attraction? **2.** What role does the individual's emotional and psychological state play in manifesting desired outcomes, beyond the framework of the Law of Attraction? **3.** What are the potential ethical implications of emphasizing personal responsibility to the exclusion of considering systemic factors and social injustices? **4.** How does the concept of vibrational frequency, a cornerstone of the Law of Attraction, align or clash with established scientific understandings of the physical world? **5.** To what extent can the principles of the Law of Attraction be applied and effectively integrated within the context of various psychological and mental health conditions? Unlocking Your Dreams: The Law of Attraction According to Esther and Jerry Hicks

Have you ever felt a nagging sense that life should offer more? That perhaps the universe holds keys to unlocking your deepest desires, if only you knew where to find them? For millions, that key has been the profound wisdom shared by Esther and Jerry Hicks, pioneering teachers of the Law of Attraction. Their work, often channeling the non-physical entity Abraham, has illuminated a path for countless individuals seeking to manifest a life of joy, abundance, and fulfillment. This article delves deep into their teachings, exploring the core principles, practical applications, and transformative power of the Law of Attraction as presented by Esther and Jerry Hicks.

Who are Esther and Jerry Hicks? A Brief Introduction

Before we dive into the nitty-gritty of the Law of Attraction, it's important to understand the messengers. Esther Hicks is the primary channel for Abraham, a collective of loving, non-physical beings who have been sharing their wisdom through Esther since 1986. Jerry Hicks, her late husband, was instrumental in organizing and presenting Abraham's teachings to the world. Together, they authored numerous best-selling books, including "Ask and It Is Given," "The Secret of the Attraction," and "Money, and the Law of Attraction: Learning to Attract Wealth, Our Way." Their approach is characterized by its clarity, practicality, and unwavering optimism, making complex spiritual concepts accessible to everyone.

The Core Principles of the Law of Attraction: As Taught by Abraham

At its heart, the Law of Attraction, as explained by Esther and Jerry Hicks, is a universal principle that states: like attracts like. In simpler terms, whatever you focus your thoughts and emotions on, you tend to attract into your life. This isn't about wishful thinking; it's about understanding the vibrational nature of reality and how your own vibrations influence what you experience.

1. You are a Creator: The Power of Your Thoughts

Abraham emphasizes that you are an "emanator of energy" and, therefore, a deliberate creator of your reality. Every thought you think, every feeling you have, emits a vibrational frequency. This frequency is what the universe responds to. If your dominant thoughts and emotions are positive, joyful, and aligned with what you desire, you will attract more of that into your life. Conversely, focusing on lack, fear, or negativity will bring more of those experiences to you.

2. Your Feelings are Your Guidance System: The Emotional Tone Scale

This is perhaps one of the most crucial aspects of the Hicks' teachings. Abraham presents an "Emotional Tone Scale," a spectrum of emotions ranging from the most negative (such as despair, grief, and apathy) to the most positive (such as joy, love, and appreciation). Your feelings act as an immediate indicator of your vibrational alignment. When you feel good, you are in vibrational harmony with your desires. When you feel bad, you are out of alignment. Learning to pay attention to your emotions and intentionally shift them towards a more positive state is key to attracting what you want.

3. The Vortex: The Energetic Space of Your Desires

Abraham describes a "Vortex" as an energetic space where all of your desires reside. It's a place where your intentions have been amplified and are waiting for you to match their vibration. The process of getting what you want involves intentionally raising your vibration to match the vibration of your desires within the Vortex.

This is achieved through focused thought and positive emotion.

4. The Art of Allowing: Releasing Resistance

A common roadblock to manifestation is resistance. This can manifest as doubt, fear, worry, or the persistent feeling that something is impossible. The "art of allowing" is about learning to release this resistance. It means trusting the process, letting go of the "how," and allowing the universe to deliver your desires. It's about finding a state of inner peace and knowing that what you are asking for is already on its way.

Practical Application: How to Use the Law of Attraction with Esther and Jerry Hicks

Knowing the principles is one thing; applying them is another. Esther and Jerry Hicks offer several practical techniques to help you harness the Law of Attraction in your daily life. These methods are designed to shift your focus, raise your vibration, and align you with your desires.

1. Clarifying Your Desires: The "What" You Want

The first step, according to Abraham, is to be crystal clear about what you want. This means moving beyond vague wishes and identifying specific desires. Whether it's a new career, a loving relationship, better health, or financial abundance, get specific. Write it down, visualize it, and feel what it would be like to have it.

2. The Process of Pure Intention: Setting Your Course

Once you have clarity, Abraham suggests the "Process of Pure Intention." This involves setting your intention for a particular outcome. For example, if you want a new job, your pure intention would be "I intend to find a fulfilling and well-paying job that aligns with my passions." This isn't about demanding or forcing; it's about stating your desire to the universe with clear intent.

3. The Rampage of Appreciation: Elevating Your Vibration

This is a powerful technique designed to shift your focus from what's wrong to what's right. It involves consciously looking for things to appreciate in your life, no matter how small. Start with something simple like the comfort of your chair or the taste of your morning coffee, and then expand. The more you practice appreciation, the higher your vibration rises, making you a magnet for more good things.

4. The Meditation for Juxtaposition: Bridging the Gap

Abraham explains that often, what we desire is in a different "vibrational neighborhood" than where we currently are. The "Meditation for Juxtaposition" helps bridge this gap. It involves first acknowledging where you are and then deliberately shifting your focus to the desired reality, finding points of alignment and joy in the process. This helps to soften resistance and ease the transition into a higher vibration.

5. The Segment Intending: Planning for a Better Experience

This technique involves intending before engaging in any activity. Before you start your day, before you go to a meeting, before you have a difficult conversation, set a positive intention. For example, "I intend for this meeting to be productive and positive," or "I intend for my interaction with this person to be filled with understanding and love." This proactive approach helps to shape your experiences.

6. Practicing Deliberate Creation: Taking Control

Deliberate creation is the ongoing practice of consciously directing your thoughts and emotions towards what you want. It involves regularly checking in with your emotional guidance system, identifying areas of resistance, and actively choosing thoughts that feel better. This isn't a one-time event; it's a lifestyle.

Overcoming Obstacles: Common Challenges and Abraham's Solutions

While the Law of Attraction sounds simple, many people struggle to see tangible results. Esther and Jerry Hicks' teachings address common obstacles with compassion and practical wisdom.

1. The Myth of "Trying Too Hard"

Often, when we intensely desire something, we try to "make it happen" through sheer force of will. Abraham explains that this can actually create resistance. The key is not to force, but to allow. Focus on feeling good, and the universe will handle the delivery.

2. The Power of Belief and Doubt

Doubt is a powerful energetic block. If you say you want something but deeply believe it's impossible, your doubt will override your desire. Abraham encourages focusing on the "why" behind your desire and finding evidence of similar things already existing in the world to bolster your belief.

3. What About Negative Experiences?

Abraham teaches that negative experiences are not punishments but rather indicators that our vibrational output is out of alignment with our true desires. They are opportunities to learn, adjust our focus, and refine our intentions.

4. The Role of Others in Your Manifestations

While you are the creator of your reality, others are also co-creators of their own. You cannot force another person to act or think in a certain way. However, by consistently raising your own vibration and holding a clear intention for positive interactions, you can influence the energetic field around you and attract more harmonious relationships.

The Transformative Impact of Esther and Jerry Hicks' Teachings

The Law of Attraction, as taught by Esther and Jerry Hicks, offers more than just a method for acquiring material possessions. It's a philosophy for living a more joyful, fulfilling, and empowered life. By understanding and applying these principles, individuals can:

1. Cultivate greater self-awareness and emotional intelligence.
2. Reduce stress and anxiety by shifting focus from problems to solutions.
3. Enhance relationships through a more positive and appreciative outlook.
4. Achieve personal and professional goals with greater ease and flow.
5. Experience a deeper sense of purpose and connection to the universe.

Conclusion: Embracing Your Power with the Law of Attraction

Esther and Jerry Hicks, through Abraham, have provided a profound and accessible roadmap to unlocking the power of the Law of Attraction. Their message is one of empowerment, reminding us that we are not passive recipients of fate but active creators of our lives. By understanding the principles of vibration, intention, and allowing, and by diligently practicing the techniques they offer, you can begin to align yourself with your deepest desires and manifest a life that truly reflects the abundance and joy that is your birthright. The journey of conscious creation is an ongoing one, filled with learning, growth, and the exhilarating realization that you hold the keys to your own magnificent destiny.

The Law of Attraction: Esther and Jerry Hicks' Holistic Interpretation The law of attraction has long captivated those seeking deeper meaning in the connection between thought and reality. While the concept has roots in ancient philosophies, Esther and Jerry Hicks have brought a modern, spiritually grounded framework to its understanding, transforming it from a vague principle into a practical, actionable philosophy. Their approach, rooted in New Thought traditions and expanded through deep metaphysical insight, emphasizes the power of conscious intention, emotional state, and energetic alignment in shaping one's life experience. At the core of the Hicks' interpretation is the idea that every thought, feeling, and belief generates a vibrational frequency that resonates outward, attracting corresponding experiences into one's life. Unlike a mechanical or transactional view of attraction, Esther and Jerry teach that the quality of your internal state—particularly your dominant emotions and core beliefs—determines the quality of the reality you attract. When you align your thoughts with love, gratitude, and purpose, you naturally draw in opportunities, relationships, and circumstances that reflect those inner truths. Conversely, negative or scattered emotions create a dissonant field that repels rather than attracts, reinforcing a cycle of dissatisfaction. One of the most profound insights offered by Esther and Jerry is the role of the subconscious mind as the architect of attraction. They argue that most people operate from a place of fear, scarcity, or self-doubt, often unknowingly shaping their external world through these unconscious patterns. By bringing awareness to these hidden beliefs and consciously shifting to a mindset of abundance and connection, individuals can reprogram their energetic signature. This conscious realignment doesn't just change perception—it actively transforms reality by attracting experiences that mirror the new inner landscape. Practically, the Hicks guide readers through a journey of self-discovery and intentional living. They introduce tools such as the Law of Attraction meditation, affirmations grounded in emotional truth, and energetic clearing practices to dissolve mental blocks. Their teachings emphasize that attraction is not passive hope but an active co-creation process, where clarity of intention, emotional synchronization, and energetic purity work in harmony. This holistic method empowers individuals to break free from limiting patterns and step into a life defined by purpose and joy. The benefits of embracing the Hicks' approach extend far beyond personal fulfillment. When people align their inner world with their highest aspirations, they cultivate resilience, deeper relationships, and a renewed sense of meaning. Relationships improve as emotional clarity fosters authenticity and mutual respect. Career paths align more naturally with passion and purpose, leading to greater satisfaction and success. Even health and well-being can shift as mindset and emotional states influence physiological responses and healing potential. Looking to the future, the Law of Attraction as taught by Esther and Jerry Hicks continues to evolve, meeting the needs of a world increasingly focused on mindfulness, emotional intelligence, and spiritual growth. Their teachings are being integrated into digital platforms, wellness communities, and leadership development programs, making profound metaphysical insight accessible to global audiences. As more people discover the transformative power of conscious intention, the movement inspired by their work is poised to inspire lasting change—one thought, one emotion, one life at a time. By embracing the wisdom of Esther and Jerry Hicks, individuals are invited not just to attract what they want, but to become the version of themselves that makes such success inevitable. In this way, the law of attraction becomes not just a philosophy, but a lived reality—woven from the threads of awareness, emotion, and purpose.

This convenience allows users to access The Law Of Attraction Esther And Jerry Hicks instantly without compatibility concerns. Furthermore, PDF files support advanced features such as embedded links, bookmarks, multimedia elements, and interactive forms, expanding their functionality beyond static documents.

This makes them ideal for archiving important documents, references, and learning resources like The Law Of Attraction Esther And Jerry Hicks. Organizations and individuals alike rely on PDFs to maintain consistent access over many years.

Optimizing PDFs for readability

Readability plays a crucial role in how users engage with long documents. Adjusting zoom levels, page layout modes, and display settings can significantly improve comfort. Many PDF readers offer features such as continuous scrolling, two-page view, and night mode. These tools help tailor the reading experience to individual preferences when exploring The Law Of Attraction Esther And Jerry Hicks.

Font clarity and contrast also affect readability. PDFs with clean typography and sufficient spacing reduce eye strain during extended reading sessions. When possible, choosing readers that support text reflow can further enhance readability on smaller screens without disrupting the document structure.

Page thumbnails provide a visual overview of the document, making it easier to locate specific sections. Combined with keyword search functionality, these tools transform large PDFs into efficient reference materials rather than static blocks of text.

Efficient search and information retrieval

One of the strongest advantages of PDFs is searchable text. Instead of scanning pages manually, users can quickly locate specific terms, phrases, or topics. This capability is particularly valuable for research-heavy documents such as *The Law Of Attraction Esther And Jerry Hicks*, where quick access to information improves productivity and comprehension.

Some advanced PDF readers offer search filters, allowing users to navigate through results systematically. This feature is useful when working with complex documents containing repeated terminology or technical language.

The Law of Attraction: Unpacking the Teachings of Esther and Jerry Hicks

In the vast landscape of self-help and personal development, few concepts have captured the collective imagination quite like the Law of Attraction. At its core, this principle suggests that our thoughts, beliefs, and emotions act as magnets, attracting experiences into our lives that mirror their energetic vibration. While the idea has roots in ancient philosophies, its modern resurgence is largely attributed to the transformative work of Esther and Jerry Hicks.

For decades, the Hicks have been instrumental in popularizing and disseminating the teachings of Abraham, a "group consciousness" of non-physical beings channeled through Esther Hicks. Their prolific output, including a series of New York Times bestselling books like "Ask and It Is Given" and "The Astonishing Power of Emotions," along with numerous workshops and audio programs, has made the Law of Attraction accessible to millions worldwide. This article delves into the detailed teachings of Esther and Jerry Hicks on the Law of Attraction, exploring its core tenets, practical applications, and enduring impact.

Who are Esther and Jerry Hicks?

Esther Hicks, a native of Arizona, began channeling Abraham in 1987. Initially a personal experience, she and her late husband, Jerry Hicks, a successful businessman and author, recognized the profound wisdom and practical applicability of Abraham's teachings. Together, they founded Abraham-Hicks Publications, dedicated to sharing these insights with a broader audience. Jerry's business acumen and Esther's ability to translate Abraham's messages into clear, actionable advice formed a powerful synergy. Their partnership was a testament to shared vision and a deep commitment to empowering others through the principles of conscious creation.

The Core Principles of the Law of Attraction According to Abraham-Hicks

Abraham's teachings, as relayed by Esther Hicks, offer a nuanced and comprehensive framework for understanding and applying the Law of Attraction. Unlike simplistic interpretations that might suggest mere positive thinking is sufficient, the Hicks emphasize a deeper understanding of energetic principles.

1. You are a Creator of Your Own Reality

The foundational principle is that we are all energetic beings, and our thoughts and feelings are vibrations. The Law of Attraction states that "that which is like unto itself is drawn." This means that whatever vibration you are holding, you are attracting a similar vibration back to you. This isn't about blame or punishment; it's about recognizing your inherent power to co-create your experiences. Whether you are consciously aware of it or not, you are constantly sending out energetic signals and receiving corresponding experiences.

2. Thoughts Become Things: The Vibrational Nature of Reality

Abraham explains that everything in the universe, including our thoughts, emotions, and physical experiences, exists as energy vibrating at different frequencies. Positive emotions like joy, love, and gratitude vibrate at a

high frequency, while negative emotions like fear, anger, and shame vibrate at a low frequency. The Law of Attraction dictates that your dominant thoughts and feelings determine the vibrational frequency you emit, and this vibration attracts experiences of a similar frequency. This is where the idea of "vibrational alignment" becomes crucial. When your vibration is aligned with what you desire, it begins to manifest in your physical reality.

3. The Role of Emotion as an Indicator

One of the most distinctive and empowering aspects of Abraham's teachings is the emphasis on emotions as reliable indicators of our vibrational alignment. Abraham states, "Your emotions are your connection to your Inner Being, and your Inner Being knows exactly what is best for you." Rather than suppressing uncomfortable feelings, the Hicks encourage us to pay attention to them. Good-feeling emotions signal that we are in alignment with our desires and our higher selves, while bad-feeling emotions indicate a misalignment. This guidance system allows us to course-correct our thoughts and focus, leading us back to a state of vibrational harmony.

4. The Process of Deliberate Creation

Abraham-Hicks present a step-by-step process for deliberately creating what you desire. This involves three stages:

1. **Ask:** Clearly identify what you want. This involves making a clear request to the Universe, whether it's for a new career, a loving relationship, or financial abundance. The Universe, according to Abraham, always responds to your requests.
2. **Allow:** This is arguably the most crucial and often challenging step. It involves releasing resistance and trusting that the Universe is working on your behalf. Resistance comes in the form of doubt, fear, worry, and the need to control the outcome. Allowing means letting go of the "how" and focusing on the "what," maintaining a belief that your desire is on its way. This often involves focusing on feelings of gratitude for what you already have and for what is coming.
3. **Receive:** This stage is the natural outcome of asking and allowing. When you are in a state of receptive vibration, you become open to receiving your desires. This can manifest in various ways, often in unexpected but perfect ways.

Practical Applications and Techniques

Beyond the theoretical framework, Esther and Jerry Hicks offer a wealth of practical techniques designed to help individuals apply the Law of Attraction in their daily lives. These methods are aimed at raising one's vibration, clearing resistance, and aligning with their desires.

Visualization and Affirmations

Visualization involves vividly imagining yourself already possessing what you desire, engaging all your senses and experiencing the emotions associated with it. Affirmations are positive statements that you repeat to yourself to reprogram your subconscious mind and reinforce your beliefs. For example, instead of saying "I am broke," an affirmation might be "I am a magnet for money and financial opportunities." The key, as emphasized by Abraham, is to feel the emotion behind the affirmation and visualization.

The "Rampage of Appreciation"

This technique, popularized by Abraham, involves consciously focusing on all the things you are grateful for. By deliberately listing and dwelling on the good things in your life, you elevate your vibration and attract more of that goodness. This is a powerful way to shift from a state of lack to a state of abundance.

Emotional Freedom Techniques (EFT) and Releasing Resistance

While not solely an Abraham-Hicks technique, the Hicks often incorporate principles of emotional release. Techniques like Emotional Freedom Techniques (EFT), also known as tapping, can be used to address and release limiting beliefs and negative emotions that create resistance to manifestation. Abraham's teachings emphasize identifying and releasing these "blockages" to allow what you desire to flow in.

Focusing on "Best-Feeling Thoughts"

Abraham constantly guides individuals to seek out "best-feeling thoughts." This means making conscious choices about what you think about, focusing on thoughts that bring you joy, peace, and a sense of well-being. This practice helps to shift your vibrational state towards what you desire. If a thought doesn't feel good, Abraham advises you to consciously shift to a better-feeling thought.

Addressing Common Criticisms and Misconceptions

Like many powerful concepts, the Law of Attraction as taught by Esther and Jerry Hicks has faced its share of criticism and misinterpretation. It's important to address these to gain a more complete understanding.

The "It's Not Your Fault" Nuance

One common misconception is that the Law of Attraction implies individuals are responsible for negative events like illness, accidents, or poverty. Abraham's teachings, however, offer a more nuanced perspective. While you are always a co-creator, it's understood that sometimes our beliefs and past experiences have created patterns that manifest as challenges. The focus then shifts from blame to empowerment – recognizing that even in difficult circumstances, you have the power to shift your vibration and attract better experiences moving forward.

Beyond Superficial Positivity

Some critics dismiss the Law of Attraction as mere "positive thinking" or wishful thinking. However, Abraham-Hicks' teachings go far beyond superficial positivity. They emphasize understanding the energetic principles at play, the crucial role of emotions as guidance, and the importance of releasing resistance. It's about aligning your inner world with your outer reality, not just pretending everything is okay.

The Role of Action

While the Law of Attraction emphasizes thought and emotion, it does not negate the role of action. Abraham often states that inspired action will flow naturally when you are in vibrational alignment with your desires. This action is typically more effective and enjoyable than forced, resistance-driven action.
